

**Get the Best Deal**

Grocery stores often sell items in different quantities, package sizes, and unit prices. A unit price is the price for one unit of an item. To get the best deal, you should buy each item with the lowest unit price. Find each unit price and determine the best deal.

	<b>1 for \$0.69</b>	<b>6 for \$2.70</b>	<b>12 for \$4.80</b>
	Unit price (per pound) _____	Unit price (per pound) _____	Unit price (per pound) _____

**Best deal:** \_\_\_\_\_

	<b>1 pound for \$0.75</b>	<b>2 pounds for \$1.70</b>	<b>5 pounds for \$4.05</b>
	Unit price (per pound) _____	Unit price (per pound) _____	Unit price (per pound) _____
